

Webinar

“Sustainability Transition and the Role of Green Public Procurement”

25 September 2024

14:00 – 15:30

Online through Zoom Platform

<https://us02web.zoom.us/j/82240661710>

Meeting ID: 822 4066 1710

The webinar on *Sustainability Transition and the Role of Green Public Procurement* aims to equip public servants with essential knowledge and tools to navigate and support the sustainability transition. As public administrations play a crucial role in shaping sustainable societies, understanding sustainability strategies, metrics, and green public procurement becomes fundamental. The Green Public Procurement not only reduces the environmental impact of public spending but also aligns with broader sustainability goals, ensuring that public institutions lead by example in the green transition.

This Webinar is organized under the programme *"Cultivating Excellence towards a Shared European Administrative Space: Connecting the Western Balkans and Italian Administration through the Public Servants Capacity Building and Mobility Programme"* funded by the Italian Ministry of Foreign Affairs and implemented by ReSPA and the Italian School of Administration (SNA). It supports capacity building and mobility for public servants, fostering collaboration between the Western Balkans and Italian administrations.
